To search the QIAT archives- start with the QIAT homepage (<u>http://qiat.org</u>). Choose the tab for the QIAT list.

From the list landing page, choose the option on the right for Archives.

The archives page will explain that all messages sent to the QIAT list are available to be searched, and are open to the public. Choose the hyperlink to View or Search Archives.

	You are Here : Home > QIAT List > Archives Archives In this section it is possible to view and search all messages that have been sent through the QIAT List from March of 1999 to the present. The messages are arranged by date and by the topic listed in the messages subject, however, they may be searched by topic, author, and keyword. The archives are open to the public and can be viewed by anyone. The searchable archives may be especially useful to researchers and to new members of the list who want to know topics of conversations that have already taken place. or to review all that has been said on a specific topic. View or Search Archives

You can search posts to the QIAT list by topic, subject, poster, etc. The more specificity you have to the search terms will help limit the number of results. For example, you can limit your search to particular subject and date range, which may be a consideration, since the postings to the QIAT list begin in March, 1999.
